Mirror Brite 4453C 50-1

Mirror Brite Polished Aluminum Maintainer is an exceptional product designed to "maintain" that polished aluminum appearance on wheels, fuel tanks, tank trucks, feed trucks and fuel trucks. Mirror Brite is a non-etching cleaner and brightener that with continued use maintains the appearance of polished aluminum surfaces. Does not turn the aluminum surface "white, satin or dull" like Aluminum Brighteners will. It may be used in hot or cold water systems with either low or high pressure spray. We find that it works best when used in our Two Step Systems along with our 4425 Super Clean Truck Wash. It may be used on most surfaces not harmed by water. Product does NOT contain hydrofluoric acid, ammonium bifluoride, hydrochloric or sulfuric acid.
